EXPERIENCE

I have **4 years of experience** as a Front-end developer and Web Designer.
Last 1.5 years I've been working with Denys Zhadanov – ex. CMO Readdle.
We've been building **2 products** represented below.

🚀 **MyLife**

mylife.tech

March 2021 - today
Web engineer, Web designer – Full-time work

- Designing the Web App, marketing materials, presentations for investors, and events
- Developing the Front-end part using Vue.js (Nuxt.js)
- Validating hypothesis using A/B tests, high and low touch interviews
- ★ Developed intro survey, promo codes, authentication and currencies systems via Vue.js and Node.js (Google Cloud suite)
- ★ Released the MVP version, gathered users' feedback

Readdle

readdle.com

April 2022 - today
UI advisor – Task-work

- Improved accessibility features on the Website
- Created marketing materials for the Website, App Store, and Mac App Store
- Communicating with Developers Team to deliver results
- Reporting results directly to CMO
- ★ Created and integrated UI Library for the Marketing Team via Figma
- ★ Created the materials for communication with Apple

Who I worked with directly or indirectly:

TOYOTA   **LEXUS**

QUIZCAST

October 2020 - March 2021, task-work
Full-stack developer

apps.apple.com/app/id1524179210

- Developing RESTful API using Node.js (Mongo + Mongoose + Serverless)
- Developing mobile app using React Native and admin panel using Vue.js (Nuxt.js)
- Released the MVP version

Lopata

January 2020 - July 2020
Founder, Full-stack developer

lopata.pp.ua

- Developing a platform for solving urban problems
- Reached 3.6K users and closed the project 'cause of the lack of product-market fit

Clean Email

January 2020 - May 2020
Web engineer

clean.email

- Translating design layouts to a Front-end part.
- Taking part in design implementation
- SEO and performance optimization

EROE

September 2019 - November 2019
Web engineer

www.eroe.co

- Laying the architecture and developing the new project from scratch via Nuxt.js (Vue.js)
- Bugs fixing via Pug + SCSS + jQuery
- Showing results directly to SEO

2018 - 2019 freelance and startup projects

PROFESSIONAL NEEDS:

A product-oriented and motivated team where I can improve my skills in various directions: development, management, and design
